

Caring for your home

HOME EXTERIOR/YARD MAINTENANCE

Outdoors is where your curb appeal shines, pets play and seasonal decorations are displayed. Our maintenance team and landscaping crews are busy throughout the year with a wide variety of tasks to ensure your home and our community's common areas are safe and looking their best. Following are a few tips you can follow to help care for your yard and home exterior:

- Don't overload exterior outlets with outdoor decorations, etc.
- No décor items can be attached to the home without management off notification/approval (e.g. flag holders, hose holders, flower boxes, etc.).
- Lawns are mowed on a regular schedule (weather permitting). Please remove any personal belongings (outside furniture, toys, etc.) from lawn areas the morning of your scheduled mowing day.
- Trash and recycling containers should be kept in a garage or behind the home except on scheduled pick-up days.
- Please be sure to promptly clean up after your pets in all areas of the community, including your yard.

SEASONAL MAINTENANCE

- Fresh mulch is added to planting beds in the spring.*
- Shrub pruning is performed in both the spring and fall.*
- Gutters are cleaned during the fall.*
- Leaf clean-up occurs in the fall after the majority of leaves have fallen.*
- Our crew will clear snow from streets and common sidewalks. Residents are responsible for snow and removal from their driveway and walkways (within 24 hours after snowfall has stopped).
- During the cold season, unhook garden hoses and cover spigots.

**Schedules for our seasonal maintenance activities will be communicated in advance.*
