Get ready to spring forward into longer days and warmer weather. **Daylight Saving Time begins at 2 am on Sunday, March 8th.** Don't forget to set your clocks forward one hour before going to bed Saturday night.

## Happening in March...

**National Women's History Month.** Museums, galleries, and libraries across the nation will be celebrating the struggles and accomplishments of women throughout history. Make time to attend cultural events in your area to learn stories of these great ladies.

**National Day of Unplugging,** sundown March 6-sundown March 7. Remember what life was like before everyone had a smartphone? Somehow we managed to have meaningful face-to-face conversations and get to places on time without getting lost. Unplug and live authentically for these 24 hours.

**Pi Day, March 14.** It's a never-ending number: 3.14159... And it's Albert Einstein's birthday.

**St. Patrick's Day, March 17.** Celebrate Irish heritage and culture on this day in honor of the uncanonized saint who brought Christianity to Ireland.

**Make Up Your Own Holiday Day, March 26.** Why not observe a cause that's near and dear to your heart?

**Take a Walk in the Park Day, March 30.** Walking is a great way to decrease stress. Take a break to enjoy the scenery and breathe the fresh spring air today.

## Be a Great Neighbor

Simple things make all the difference when building relationships with the people who live around you. A friendly wave and a cheerful smile as you encounter a neighbor can open the door to pleasant discussions if small problems arise. Most complaints can be easily addressed neighbor-to-neighbor if open lines of communication are established. Let your neighbors know you are approachable if they have a problem. Having great neighbors usually starts with being a great neighbor.

## Your Money Matters

*Keep track of where your money goes, and you will spend less.* Enter expenses each week into a personal financial software program—or simply write them down. You may be surprised to find out how much you are spending on items that you would not miss if you did not buy them. Cutting back those purchases is a painless way to have more money for things you really want.

## We're Lucky to Have You Here

DeVille Apartments & Builders has been granted a bit o' luck—with warm, friendly residents like you. Our good fortune probably makes other properties green with envy! # Calm your fears about airline travel

**F**lying may be the safest way to travel, but getting on an airplane still makes many people nervous. If you're one of them, remember these basic tips for ensuring a calm, safe flight:

- **Fly nonstop when possible.** Crashes and accidents are rare, but they're most likely to occur during takeoffs and landings. Look for nonstop flights (remember that direct flights aren't necessarily nonstop, even though you may not change planes).

- **Keep your seatbelt fastened.** Yeah, you know this already, but it's still important

advice. Sudden turbulence can cause an injury, even when you're sitting in your seat, if you're not buckled in.

- **Know your exits.** If you have to evacuate quickly (and evacuations, along with the deployment of emergency oxygen, are the most common emergency situations you're likely to encounter, although most of the time they're preventative measures), you don't want to waste time. Knowing the location of the nearest exit is an excellent precaution.

- **Keep your children safe.** When traveling with a baby or

toddler, a child restraint system like a car seat is a must. Check the labels to make sure it's certified for use on aircraft. Measure the width of your car seat before boarding: If it's 16 inches or less, it should fit into any airline seat.

- **Don't obsess over finding the safest seat.** Though you may want to be closest to the emergency exit, the fact is that no one seat is safer than any other on an airplane. For example, in some emergencies passengers are better off remaining in their seats—wherever they are—than trying to scramble off the plane.

## Looking to marry? Grow a beard.

Male beards have been in and out of style for centuries. But do beards send any signal to potential mates? Yes, say researchers in Australia.

University of Queensland researchers gathered more than 8,500 women and divided them into three groups. Each group saw pictures of the same men, whose photos were manipulated to show faces clean-shaved, with light stubble, with heavy stubble, and fully bearded.

The study, published in the *Journal of Evolutionary Biology*, found that women rated men with heavy stubble as sexiest. Men with short stubble were rated the best for a short-term fling. But, while men with full beards were not rated high on the sexiest scale, they won the day as candidates for marriage and family. Researchers said participants rated men with full beards as older, more masculine, generous, sincere, and hard-working.

## Even fashionistas can be frugal

Like it or not, your appearance plays a role in your success. But it's tough to build a power wardrobe when you're on a budget. Try these suggestions:

- **Go goth.** Well, not exactly goth, but definitely dark. If you buy staples—pants, skirts, jackets—in darker, neutral colors, you can get away with wearing those garments more often.
- **Think value.** Emphasize long-term value over short-term costs. Buying cheaper shoes and clothing may seem like a good idea, but you could end up paying more if you have to replace them sooner. Instead, choose the best quality you can afford.
- **Be thrifty.** Don't limit your shopping excursions to pricier department stores. Many consignment shops sell top-quality apparel and designer fashions in near-new condition for a fraction of the retail price.
- **Shop seasonally.** Buy clothes at the end of the season after prices have been slashed. Then save them to wear the following year.
- **Steam clean.** Purchase a steamer to help offset the cost of frequent dry-cleaning.

In exchange for not blowing JJ's cover Sophie convinces him to spend time with her and teach her to be a spy. Despite his reluctance JJ finds he is no match for Sophie's disarming charm and wit.

**MULAN** When the Emperor of China issues a decree that one man per family must serve in the Imperial Army to defend the country from Northern invaders, Hua Mulan (**Yifei Liu**), the eldest daughter of an honored warrior, steps in to take the place of her ailing father.

**BLOODSHOT** Vin Diesel stars as a soldier recently killed in action and brought back to life as the superhero Bloodshot. With an army of nanotechnology in his veins, he's an unstoppable force -- stronger than ever and able to heal instantly. But in controlling his body, the company has sway over his mind and memories, too. Now, Ray doesn't know what's real and what's not -- but he's on a mission to find out.
