

Sheila Holmes is living her best life at Forest Valley Terrace!

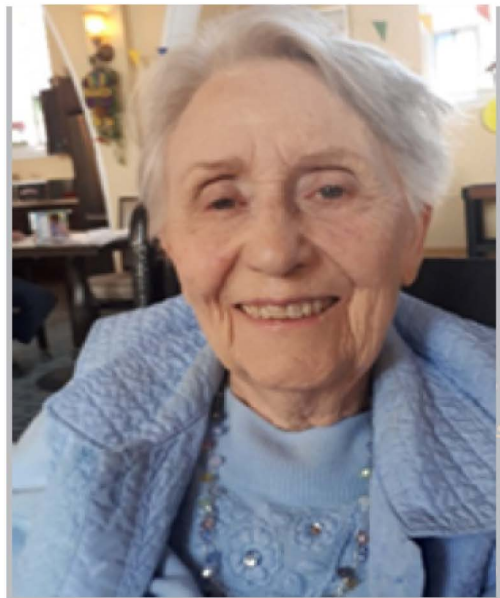

“ We are so grateful to Forest Valley Terrace for providing our mother with a lovely, caring place to live.

We looked at many other homes but yours ticked more boxes than any other, beginning with the scenic drive up the hill to the wooded property and the historic building.

Forest Valley provides specialized programmes for Dementia which is valuable; when mum participates in their music activities we see unabashed joy on her face again.

With delicious food served in the bright, airy, dining room and the home so beautifully decorated and spotlessly clean, Mum thinks she is in a hotel and she must be on vacation!

The administration team is responsive to our concerns and questions and we feel confident that this is the best place for mum to be.”
