Habits for a long life

Thanksgiving food safety

Turkey 101 and more.

4811 Whipple Avenue NW Suite 101 • Canton, OH 44718

Happening in November...

Military Family Appreciation Month. Throughout November, military families serving around the world are honored and recognized for their commitment and the many contributions they make every day in support of the military and our nation.

Election Day Nov. 8. Exercise your right to vote.

Veterans Day, Nov. 11. Honoring veterans of the U.S armed forces, on the anniversary of the signing of the armistice that ended WWI.

Loosen Up, Lighten Up Day, Nov. 14. Don't let the stress and the chaos wear you down. Let it go. You'll feel much better.

Thanksgiving Day, Nov. 24. Whether you're together with your family this year or celebrating via Zoom, remember to be thankful.

It's Time to Fall Back in the Fall!

Daylight Saving Time ends at 2 am on Sunday, November 6th. Be sure to set your clocks back one hour before going to bed on Saturday night and enjoy the extra hour of sleep!

Helpful Life Hacks

Driving tip. The amount of time that a traffic light stays yellow corresponds to the first digit of the speed limit. If it's a 50 mph zone, the yellow light will last 5 seconds long. If it's 35 mph, it will be 3.5 seconds, etc.

Wellness tip. If you live alone, put together a "sick kit" for those times you get sick and don't want to or can't go to the store for medicine and supplies.

Need to glue something together? ThisToThat.com will show you the best adhesive to use when gluing two different materials together.

Too much junk mail? Did you know the average person receives 41 pounds of junk mail per year? You can help reduce this by using a site like catalogchoice.org or dmachoice.org to remove your address from certain companies.

Give Peace a Chance

Observe World Peace Day this November by keeping the peace right here at home. Your neighbors will appreciate your courtesy as you walk softly on stairs, keep voices down in hallways/breezeways, turn volumes to low on television/stereos and quiet barking dogs. "Let peace begin with me." Thank you!

Just for Laughs

- I just sold my vacuum cleaner. All it was doing was gathering dust.
- Nothing tops a plain pizza!
- Taking my dog "Shark" to the beach yesterday was probably not the best idea.
- I just heard the company that makes yardsticks isn't going to make them any longer.
- I have a phobia of German sausage. Yes, I fear the wurst.
- I lost my wife's audiobook, and now I'll never hear the end of it.
- A man tried to sell me a coffin today. I told him that's the last thing I need.
- What's the difference between a poorly dressed man on a bicycle and a well-dressed man on a unicycle? Attire.

Follow these habits for a long life

All of us want to live a long and healthy life. Fortunately, it's not just a matter of genetics and luck. CNN suggests taking these steps for safeguarding your health and happiness for a long time to come:

- **See your doctor regularly.** Get screenings for prediabetes and other health conditions so you can take action before a problem becomes serious. Consistent visits help you and your doctor get to know each other, building trust and allowing your doctor to spot potential problems early.

- **Exercise consistently.** Regular physical activity can reduce your risk of high blood pressure, heart disease, stroke, and other complications as you grow older. Try to get about two and a half hours of moderate to vigorous exercise a week to stay fit.

- **Eat right.** Limit your consumption of processed foods and eat more fruits, vegetables, legumes, whole grains, and nuts. Your plate should be at least half fruits and/or vegetables

at mealtimes. A plant-based diet supplies more antioxidants, which relieve stress and fight the buildup of plaque in your arteries.

- **Pay attention to mental health.** Stress, anxiety, depression, and other mental health issues can have a negative impact on sleep, digestion, and your overall physical health. Practice meditation and other relaxation techniques. See a therapist to deal with underlying issues.

- **Get enough sleep.** Lack of sleep can lead to higher levels of stress hormones, blood sugar, and blood pressure. Get at least seven hours of sleep every night. Regular exercise and a consistent sleep routine can help.

- **Cut down on alcohol and cigarettes.** Heavy alcohol use can cause weight gain, high blood sugar, heart disease and more. Tobacco use increases your risk of different types of cancers. Limit or eliminate your use of both substances to extend your lifespan.

Easy appetizer: Stuffed Medjool Dates

- 40 medjool dates
- 1 cup mascarpone cheese
- ½ cup Shelled Roasted & Salted Pistachios, chopped
- ⅔ cup pomegranate arils
- Zest from 1 large orange
- Juice from ½ large orange

Make a lengthwise slit in each date, then squeeze the ends toward each other to open the fruit and remove the pit.

Stuff each date with 1 tsp mascarpone cheese. Press 6 to 10 pomegranate arils into mascarpone cheese. Press a pinch of chopped pistachios into the mascarpone cheese in each date. Sprinkle orange zest over top of dates. Drizzle juice from ½ orange over filled dates. Chill and serve. Makes 40 stuffed dates.

Chef's tip: If you are short on time, you can make these the night before, up through adding the pomegranate arils and pistachios. Cover and refrigerate. Zest and squeeze juice from the orange just before serving.

Simple food safety tips for Thanksgiving

- The best way to thaw a turkey is in a refrigerator, according to USDA recommendations. Allow 24 hours for each four to five pounds, in a refrigerator cooled to 40 degrees or below. Be sure to let the turkey thaw in a container so juices will not drip onto other foods.
- If you must thaw a turkey in cold water, be sure it is in a leak-proof bag. The turkey should be submerged in cold water. Allow 30 minutes per pound. Change the water frequently. USDA recommends every 30 minutes. Cook immediately when thawed.
- Cook turkey to 165 degrees in thickest part of the breast, inner thigh, and inner wing.
- Wash hands with soap and water for at least 20 seconds before touching any food.
- Do not store stuffing inside a turkey. Refrigerate it separately.
- Don't wash the turkey. According to the USDA, loosely attached bacteria can contaminate the kitchen when you wash meat or poultry. Studies have found bacteria cling to sinks, sponges and towels. Bacteria is effectively killed in the oven. The best idea is to take the turkey out of the package and put it straight into the pan.

Turkey 101: Carving the bird

Thanksgiving dinner is usually about the turkey. You don't have to be a surgeon to carve one correctly, but proper carving and slicing techniques will ensure you get the most meat from your bird and enable you to present an attractive meal to your friends and family. Follow these easy techniques for successfully carving your holiday turkey:

- Let your 10-pound-or-bigger turkey stand at room temperature for 10 to 20 minutes after cooking and before slicing. This allows the juices to distribute evenly throughout the turkey. Netting and cooking bags are also easier to remove after waiting.

- Slice or carve the turkey on a sanitized cutting surface. Knives, pans, and covers should be sanitized, too.

Resanitize boards and knives every 30 minutes. Wear disposable food-handling gloves while carving or frequently wash your hands thoroughly.

- Immediately after the 10 to 20 minutes holding time, carve the turkey into major sections (i.e., breasts, thighs, drumsticks, and wings).

- To serve turkey hot, place sections in pans. Cover with foil or plastic film to retain heat and moisture and to minimize the possibility of contamination. Your turkey should be at least 140° F when placed in the holding pans. A maximum holding time of 20 to 30 minutes is recommended.

- Slice the sections into serving pieces, arrange them on a plate, and add garnish. Enjoy!

A meatless Thanksgiving?

A vegetarian Thanksgiving isn't a contradiction of terms. The traditional turkey may be a favorite, but you've got other options available that don't force you to compromise your principles or your enjoyment. Consider these meatless alternatives:

- **Butternut squash with stuffing.**

Take four medium-size butternut squash, $\frac{3}{4}$ cup of raw wild rice, a cup of chopped red onion, and other spices and ingredients. Find the recipe on vegkitchen.com for a dish that serves eight people.

- **Lasagna.** A good, filling entrée that can be prepared with all kinds of vegetables and meat substitutes (like tofu). Spinach, zucchini, and mushrooms are popular ingredients.

- **Winter squash risotto.** Risotto calls for patience and lots of careful stirring, but can result in a satisfying and delicious meal. One medium butternut squash, or 2 to 3 delicata squash, can be used in a risotto recipes found on Veggie Table's site at theveggietable.com.

Take a cold shower—for better health

Showers keep you clean, but a cold shower can be good for your health. An article on the Success website spells out the benefits of taking cold showers:

- **Immunity.** Scientists believe there's a correlation between cold showers and increased production of an amino acid called glutathione, which boosts the immune system, gets rid of toxins, and eases stress.
- **Better skin health.** A hot shower removes important oils from the skin, making it dry and itchy. Cold showers reduce skin inflammation. They also prevent your hair from becoming brittle.
- **Muscle recovery.** There's a reason why athletes soak in ice baths after a tough game. The cold water helps speed their recovery time and relieve soreness quicker.
- **Better moods.** Cold showers may prevent depression, according to researchers at Virginia Commonwealth University. Decreasing the temperature of your water and then spending two or three minutes under cold water sends a lot of electrical impulses from the nerves in your skin up to your brain, which could have an anti-depressive effect.

Happy Thanksgiving Word Search

This is a zigzag word search puzzle.
Words go left, right, up, down, not diagonally, and can bend at a right angle.
There are no unused letters in the grid, every letter is used only once.
